

Assistant Research Coordinator – Permanent Full Time Position

The North Peace Applied Research Association (NPARA) is a non-profit agricultural organization based out of Manning in the Peace River Country of northern Alberta. Producer driven, NPARA conducts applied agricultural research, demonstration trials and extension programs in the North Peace.

A self-motivated, responsible individual is needed to conduct research and field demonstrations of crops and soils projects. Extension events and publications will be prepared to present findings to the agriculture community.

Qualifications:

- Degree or Diploma in Agriculture, preferably plant science, soil science, or agronomy
- Excellent written and verbal communication skills
- Good working knowledge of current technology
- Ability to conduct small plot and field scale research with producers, agri-business, and various levels of government
- Ability to operate farm machinery
- Related experience in agricultural research would be an asset
- Ability to access and gather technical agricultural information
- Possess learning and communication skills to share knowledge in a professional and effective manner
- Be a Canadian citizen of permanent resident of Canada

Salary will commensurate with education and experience. There will be opportunities for continuous learning and development.

This position will remain open until a suitable candidate is found. Only individuals selected for an interview will be contacted.
